WRAP-EM

Western Regional Alliance for
Pediatric Emergency Management

Hospital and Healthcare Chemical Surge Plans: Pediatric Considerations

The purpose of the workshop is to:

- Provide pediatric-focused content to be included in healthcare facilities, regional, and healthcare coalition chemical response plans
- Provide pediatric-focused resources and templates for inclusion in a chemical response plan

The target audience for the workshop includes the following groups:

- Hospitals: Pediatric, General, Community, and Critical Access
- Healthcare Coalitions, Fire/EMS, Public Health, and other community partners
- Federal/State/County Emergency Management and disaster response partners
- Hospital Emergency Managers
- Chemical Safety Officers (hospitals and communities)

The objectives for the workshop are:

- Provide an overview of pediatric considerations in chemical surge response, decontamination, and treatment
- Identify gaps in capabilities and capacities in hospital preparedness for pediatric chemical surge response
- Promote plan/annex alignment between regional, community, and facility plans
- Build relationships and collaboration with PPN and Pediatric Disaster Centers of Excellence (WRAP-EM, G7, Region V for Kids) as trusted resources
